COMMENTS:

Now I'm bet you guys are still getting over the shock that there is a release of gou-dere so I will give you a moment...
Ok then! We used to have this project long ago, but then it got messy and we had to let it go. However, it has been left unfinished and we have come back to save it from the grave! Of course, resurrecting something is not that easy and after lots redrawing and translation problems we were able to get it completed, so thanks to everyone that helped! We hoped you enjoyed the release and you can look forward to the next release. Till next time! Placout

(I want to give a shoutout to KexuJune, I told you we would release this eventually :D)
